Objective

Seeking an internship opportunity as a Full Stack Developer, applying my knowledge in Java, SpringBoot, React, and MySQL, with a focus on building interfaces and delivering innovative solutions.

Skills

Full Stack | Java | SpringBoot | React | JavaScript | HTML | CSS | styled-components | Node | MySQL | MongoDB | Docker | Postman

Knowledge of Clean Code, SOLID, Design Patterns, Git and GitHub, Scrum, Kanban, Extreme Programming (XP), CI/CD, Unit testing.

Intermediate English (B1).

Experience

College Project: Automatic Feeding System - IoT (2024)

Developed the project code in C++, using the Telegram BOT API for remote manipulation.
Created the prototype with ESP-8266, a breadboard, a DC motor, and an H-bridge.
Integrated hardware and software components to create an automated feeding solution.

College Project: Event Website (2024)

Designed the initial interface in Figma and implemented it using HTML, CSS, and JavaScript.
Developed the front end using React and styled-components.
Configured the back end with Node.js, creating REST APIs for event, user, and role management.
Integrated the ZIP Code API for address handling and the Imgur API for image uploads.

Education

Associate Degree in Systems Analysis and Development
FECAP - Fundação Escola de Comércio Álvares Penteado
March 2024 - December 2025
